

SPACEDEV

SPACE DEVELOPMENT
CONSULTING LIMITED

We are a
reference point
in the Design and
Build sector

Our Resolve

Is to be the niche contractor of choice

We strive to:

- ♦ Ensure that our professional services are discharged ethically and with integrity;
- ♦ Ensure that the interests of all stakeholders are protected.

From the onset . . .

Space Development Consulting Limited was formed in 2003 with the objective of rendering services in design and build, space remodeling, project and construction management. It became registered with the Corporate Affairs Commission in February 2005, and was incorporated in April 2006.

From the onset, we adopted a systems approach to design and build, which is our core offering - whereby all projects are broken down into design resolutions, planning and construction phases. In this manner, consideration is given to various factors which affect and influence the design and build process. From these arise various alternatives of which a logical option is exhaustively analyzed, thus ensuring maximum economy in terms of cost, time and quality. We adopt an integrated approach to project delivery where by the project's scope is defined from a careful identification of its objectives in terms of time, budget and technical requirements.

Thereafter, detailed planning in terms of the three indices of measure: cost, time and quality, is undertaken to give "life" to the project. We always identify and clarify with the client what the change management criteria is, before the implementa-

tion phase commences. This sets the framework for decision making as the project evolves. It is only after a satisfactory action plan is determined that we proceed to the execution stage, which almost always requires a feedback to planning. All that project experience of progress in terms of time, quality control, expenditure as well as scope changes is encapsulated in a management report, which is communicated to the key stakeholders periodically.

Consistently with our philosophy of giving maximum value to the client, we have continually ensured that all our procedures in both design and project management are fully computerized.

We earned the trust of notable institutions . . .

... and other clients

We have a clientele base cutting across various institutions. Some of them include commercial, restaurant/fast food; private residential and religious institutions just to mention a few.

OUR TEAM

K. Oluwatosin Sunmonu
Managing Director

**Professional Qualification: Graduate Member,
Nigeria Institute of Architects**

**Education: University of Ibadan - M. Sc Housing-
2010; Yaba College Of Technology - HND Architec-
ture - 1998/99**

Mr. Sunmonu is a director of Space Development Consulting Limited. Prior to founding this organisation, he had worked for Comprehensive Project Management Services Limited (CPMS Ltd). A pioneer project management firm in Nigeria, where he worked for 5 years and rose to the level of Project Manager.

Subsequently, he worked with SAS Consultants, a major player in the design & build segment of the construction industry between July December 2004. He was the head of the construction department.

While at CPMS, he participated actively in branch expansion networks of Guaranty Trust Bank Plc. (now GTBank). He handled a number of branches from conceptual design stage to the post construction phase. Some of the branches include Ikeja 2, Abuja, Yola, Calabar and Akure among others.

He also worked on other projects such as Funtaj International Secondary School, Kuje, Abuja, Luxury Town Houses for First Marina Trust at Banana island, Ikoyi, 10-Storey Luxury residential Development along Cooper Road Ikoyi for Cooper Investment Limited among others.

He is versatile in the use of architectural softwares and Microsoft Office applications.

Uche Isiadinso

Construction/Project Director

B.Sc., M.Sc., PMP, DIC MICE, MNSE, CMngr, COREN CEng
Eur Ing

Uche is a chartered engineer and a member of ICE (Institution of Civil Engineers), NSE (Nigerian Society of Engineers), CMI (Chartered Management Institute) and COREN (Council for the Regulation of Engineers of Nigeria).

He holds a B.Sc. Civil Engineering in Nigeria and M.Sc. Structural Engineering in UK. Other professional qualifications he holds include, PMP (Project Management Professional), CEng (Chartered Engineer) and Eur-Ing (European Engineer). Along his career path, he has both contributed and broadened his experience from organizations which comprises Arbico Plc as Deputy General Manager, BCL Construction and Civil Engineering as Deputy Managing Director, Capita Property and Infrastructure/ Capita Norman + Dawbarn, as the Operations Director, Mott MacDonald Limited as the Project Manager and the Senior Project Engineer at Mouchel Group.

Uche has been directly responsible for the profit and loss for commercial and residential projects in addition to management and supervision of the construction team. While at BCL, he brought in and completed high-profile projects, some of such projects include Cornerstone towers - Victoria Island Lagos, Alliance Towers – Ikoyi, Lagos, Exxon Mobil Nigeria Projects, and other landmark projects. When Uche is required to take his mind off work he likes to engage himself in athletics and swimming. He is married and currently lives in Nigeria.

Arc. EKOTT, Paul Ekanem,
Head, Design Studio

Full Reg. Member (M/4252) – MNIA (2021)
Registered Architect (F/4025) – ARCON (2017)
Masters in Environmental Design (Architecture, 2014)
